Clinical Waste Collection Service

Mid Sussex District Council provides a free clinical waste collection service for residents. Collections are made weekly, fortnightly, and monthly or on request as required.

If you require a clinical waste collection please complete the form overleaf. To ensure we understand the type of waste we are collecting we require your Community Nurse, GP or Consultant to indicate the type of waste being produced and to sign the form. Please take your form with you to be signed at your next appointment.

Once we have processed your completed form we will pass your details to our contractor who will contact you to confirm the provision of the service for you and to arrange the details of the collection.

Please note that if your circumstances change you may be required to complete an additional form.

We are aware that some GP practices will not complete this form. If you find this to be the case please note this on your form, complete as much as you can yourself and return the form to us.

If you have any queries please contact us.
Telephone 01444 477440
