

MID SUSSEX DISTRICT COUNCIL

Equality Impact Assessment

Title of Policy/Service/Contract:

Equalities Assessment for the Mid Sussex District Plan 2014 -2031 (Proposed Modifications)

Division: Planning Policy and Economic Development

Lead Officer: Alice Henstock

Date Assessment completed: September 2017

1. SCOPING

1.1 What are the aims of the policy, service/service change or contract?

To provide a Development Plan to shape the future of development in the District by providing the planning policy framework to:

- Shape the pattern, amount and type of future development;
- Protect and enhance the assets of both the natural and built environment;
- Determine planning proposals;
- Support the delivery of other Council policy documents.

The results of this Assessment are used to inform a Community Involvement Plan. This details how and when engagement with stakeholders is undertaken.

1.2 Who does the service/policy/contract affect? Who are the main customers (internal or external)?

The policies contained within the District Plan have the potential to affect anyone who lives, works or visits Mid Sussex and also those who are outside the administrative boundaries of the District.

The main customers of the District Plan are:

- Members of the public;
- District, Town and Parish Councillors;
- Those involved in the development industry such as developers, landowners, agents;
- Organisations and individuals that provide services to residents and organisations;
- Organisations and individuals that represent groups of people;
- Internal customers include those service areas responsible for decisions that require consultation such as the Housing and Leisure Departments.

1.3 What equality information is available, including any evidence from engagement and analysis of use of services?

The District Plan has been prepared in a number of stages. This Equalities Assessment looks at both the proposed content of the District Plan and the process of consultation. A Community Involvement Plan, informed by the results of this Assessment, details how the consultation will be undertaken.

This Assessment will be reviewed, and if necessary revised, for each stage of the District Plan.

Evidence

The strategy and policies contained within the Mid Sussex District Plan 2014 – 2031 and Focused Amendments 2017 have been shaped by extensive public consultation.

- The Mid Sussex District Plan 2014 -2031 Draft District was published for consultation in May 2013. The consultation sought views on the Plan strategy and strategic objectives, as well as on policy options. The consultation was undertaken in various ways to reach as many members of the community as possible, including seldom heard groups. The comments received during this consultation informed the preparation of the next version of the Plan.
- The Mid Sussex District Plan 2014 -2031 Pre-Submission June 2015, was published for consultation. Having considered the representations made during this consultation it was decided that further amendments to the Plan should be made before the Plan was submitted for Examination.
- A focused amendments consultation took place during November 2015. The Plan was submitted for Examination in August 2016. The Examination hearings have taken place and the Inspector has indicated that the Council should consult on Main modifications to the Plan to inform his report into the soundness of the District Plan.
- Other strategies prepared by the District Council, including the Economic Development Strategy, the Sustainable Communities Strategy and Leisure and Cultural Strategy, link to the aims and objectives of the District Plan. Responses made to these documents have been taken into consideration during the preparation of this Assessment.

1.4 What does this information tell us about the equality issues associated with the service and implications for the protected groups?

In order to be able to undertake a robust assessment of the impact of the District Plan on protected groups it will be necessary to ensure targeted consultation with these group at the Main Modification stage.

1.5 Are contractors or partnerships used to deliver the service? No

If No go to section 2.

If yes, please refer to the guidance notes, particularly Appendix One of the MSDC Guidance “Integrating Equality and Diversity into Procurement”, and complete the next three questions.

Identify the contractors/partnerships used to deliver the service.

What is their contribution to equality in service delivery and the promotion of equality?

How are equality issues addressed through contractual arrangements and service level agreements?

2. Assessment of Impact: Analysis and Action Planning

Any gaps in information or provision, opportunities to promote equalities and good relations identified above need to be translated into SMART actions and recorded here. These actions need to be delivered and monitored through the service planning process.
