

**Use Plastic bottles as planters!**

With everyone being in lockdown many of us are in our gardens, on balconies, or even creating small gardens in our flats. The following images give lots of ideas for reusing plastic bottles in creative ways as planters for flowers or fruit and vegetables. An easy way to save money and the environment!

And finally; Need a watering can? Look no further! Put some holes in a milk bottle lid, fill the bottle with water and Bob's your uncle!!
