

Crematorium Need Assessment

Peter Mitchell Associates

Errata

- 1.5 In the four years 2016 to 2019, Surrey and Sussex Crematorium operated on average at 130% of practical capacity in peak months; Woodvale Crematorium operated at 112%; The Downs Crematorium operated at 74% and Kent and Sussex Crematorium operated at 133%.

Woodvale Crematorium	Year				Averages
	2016	2017	2018	2019	
Combined annual deaths in catchment area	6,529	6,781	6,762	6,638	6,678
Average deaths per month	544	565	564	553	556
Deaths in peak month	608	793	809	693	726
Percentage of annual deaths occurring in peak month	9.3%	11.7%	12.0%	10.4%	11.0%
Annual cremations, minus direct cremations	2,018	1,967	1,697	1,533	1,804
Total slots available	3,780	3,780	3,780	3,780	3,780
Level of technical capacity	53%	52%	45%	41%	50%
Total core slots available	2,772	2,772	2,772	2,772	2,772
Level of practical (core) capacity	73%	71%	61%	55%	68%
Average monthly core slots available	231	231	231	231	231
Average monthly cremations	168	164	141	128	150
Calculated peak month cremations	188	230	203	160	198
Level of practical (core) capacity in peak month	81%	100%	88%	69%	85%

Figure 43: Capacity levels at Woodvale Crematorium 2016 to 2019

Woodvale Crematorium	Year				Averages
	2016	2017	2018	2019	
Combined annual deaths in catchment area	6,529	6,781	6,762	6,638	6,678
Average deaths per month	544	565	564	553	556
Deaths in peak month	608	793	809	693	726
Percentage of annual deaths occurring in peak month	9.3%	11.7%	12.0%	10.4%	10.9%
Annual cremations, minus direct cremations	1,211	1,180	1,018	920	1,082
Total slots available	2,016	2,016	2,016	2,016	2,016
