# View from Paddockhurst Road at LVA Viewpoint 9 looking south into the High Weald AONB

To be viewed **digitally at 125% enlargement** - see notes below.

Summer - 19th May 2020, 11:27

**Notes:** Cylindrical panoramic image - **to be viewed digitally** (see instructions for viewing below). If printed on A3 paper this image is for context only.

**Instructions for viewing digitally:** All images must be viewed with the horizontal markings ascending the left page border 100mm apart (achieved by adjusting PDF zoom level). This represents a 125% enlargement (refer to Technical Methodology in Appendix C to the Landscape and Visual Appraisal submitted with the Application). The images should then be viewed at comfortable arm's length (exact mathematical reference point = 542mm from eye to image) by maintaining the head in a constant position (without turning) and panning the image from side to side - this maintains a constant viewing distance across the panorama and provides the best recommended representation of the view found on site.

Photographs taken with a Nikon D3500 digital SLR camera (cropped frame sensor) with a fixed focal length Nikon 35mm lens (refer to Technical Methodology in Appendix C to the Landscape and Visual Appraisal submitted with the Application). Photographs stitched together using Photomerge ('reposition only' layout) in Adobe Photoshop.
