Dear Sally,

Thank you for taking my call this afternoon.

As discussed, I would be extremely grateful if you can indicate progress on the matters I raised with Andy Watt. You committed to do this as soon as officers were available and I would be grateful if this could be this week, given the potential expiry of the application at the beginning of next month.

The two key issues that would help me explain progress of the application to my client are as follows:

1. Have you settled the landscape consultation response given the extensive correspondence we have provided on this matter?
2. You indicated that you believe your officers have appointed a crematorium need expert, can you please confirm they have no conflict of interest with Dignity Funerals Ltd, and when they will report back?

If you can go further and confirm what the recommendation to committee will be and which committee date that may help me persuade my client to consider a formal extension of time as you have requested.

Thank you for your intervention in this matter.

Kind regards,

Lisa

Dear Ms Jackson

Thank you for your email.

All this work is ongoing, therefore I will be happy to give you updates on these matters in due course, particularly once Nick returns from leave w/b 2 November.

Regards

Andy Watt BSc (Hons) MTPL MRTPI

Dear Andy

I was hoping you could call me to update me on progress with the above application? In particular I am keen to establish the following:

1. Have you received a formal response to Mark Gibbin's letter so we can settle the landscape consultation response?
2. Have you appointed a Crematorium Need expert, if so whom have you appointed, have they confirmed they have no conflict of interest in respect of Dignity Funerals Ltd and when do they anticipate a response being made available to the applicant?
3. Have you moved any closer to a recommendation/potential committee date on this application to assist in a response on your request for an EOT?

Perhaps it would be easiest to book another Teams call to deal with these points? - I had suggested Friday morning 23rd October. Can you please confirm by the end of today if that is suitable as participants are holding this slot in their diaries and I am under pressure from the team to confirm.

Kind regards,
Lisa

Dear Andy

Further to our meeting and my email of Friday 10th October I now attach three additional items as promised.

1. Note setting out the minor discrepancies between the 'as built' access with the proposal. You will note from the detailed plans highlighted in the note that the proposal does not require the removal of any hedgerow.
2. Photos from Hamdown Natural Burial ground in Dorset. These show the woodland character of the mature parts of the burial site.
3. Letter from Mark Gibbins (Landscape Architect) setting out what we believe to be points of common ground on landscape and visual impact.

In addition, in order to assist the interpretation of the relative impacts of the fallback and the proposal, I attach two additional cross-sections in drawing 917-MP-06A that compares the impact from viewpoint 12 of the LVIA. This additional drawing showing sections B-B and C-C compares the impact of the consented chapel building and that of the proposed crematorium building from the same view point position from within the AONB. Please can this drawing be added to package of application drawings.

I have copied Thomas into this email so the attachments to this email can be uploaded on to the application website. I hope that assists?

In order to keep this application progressing can I request that there is a formal response to Mark Gibbins letter by 21st October? Can I also suggest that we book another Teams call on 23rd October so we can review progress? I would anticipate this being a smaller attendance by our team than last time and hopefully a shorter call?

I look forward to your response.

Kind regards,
Lisa
