- Appendix 2 – Commitments as at 1<sup>st</sup> April 2026
- Appendix 3 – Housing Trajectory (Large Sites)

# 1. Introduction

- 1.1. In January 2026, ahead of hearing sessions held in February/March 2026, the Council published Topic Paper **MS-TP2: Housing**. This Topic Paper provided an updated position on Local Housing Need, Housing Supply, Housing Requirement, Five Year Housing Land Supply and Affordable & Specialist Housing Needs.
- 1.2. Subsequently, the Council published Hearing Statements **MS01: Housing Requirement**, **MS02: Housing Supply and Headroom** and **MS03: Homes to Meet the Needs of all the Community**.
- 1.3. These topics were examined in detail at the hearing sessions. Following the close of these hearings, the Inspector wrote to the Council (**IDJB-012**) with his interim conclusions and action points. In relation to housing, these were (in summary):
  - The Plan Period shall be 2021 – 2040, reflecting the additional year proposed by the Council at Submission.
  - The appropriateness of the Local Housing Need (LHN) starting point was confirmed – 999 dwellings per annum (dpa) from 2025 onwards with figure for past plan period years reflecting the LHN at that time.
  - To increase the housing requirement to include a specific number of homes to meet a proportion of neighbour’s unmet needs – principally at Crawley but also having regard to the south coast.
  - To aim for an overall housing requirement of 1,200 – 1,300dpa
  - To give consideration to the need for headroom i.e. the theoretical excess of housing supply over housing requirement, and recalculate windfall.
  - To test the Council’s ability to meet a requirement towards the upper end of that range through the identification of additional housing sites.
  - To identify the additional sites using a revised Site Selection Methodology [MS-12] as a guide, with the reasons for selecting or rejecting sites clearly justified.
- 1.4. In addition to the identified actions, the Council has also updated the supply calculations to reflect the passing of another monitoring year. The previous Topic Paper and Hearing Statements were based ‘as at 1<sup>st</sup> April 2025’. The figures contained within this Topic Paper are now based ‘as at 1<sup>st</sup> April 2026’.

## 2. Local Housing Need

- 1.5. LHN is based on the Standard Method as set out in Planning Practice Guidance. The Standard Method components (household projections and affordability ratios) are updated annually, therefore the minimum Local Housing Need figure changes over time.
- 1.6. MS-TP2 explains that the Regulation 19 version of the District Plan was based on **1,090 dwellings per annum (dpa)** with a 1<sup>st</sup> April 2023 base date. At submission, the Council proposed a modification to the District Plan to reflect the most up-to-date Standard Method data at that time. This revised the figure to **1,039dpa** with a 1<sup>st</sup> April 2024 base date. In MS-TP2 the Council explained that, based on the latest data as at 1<sup>st</sup> April 2025, the figure was now **999dpa** and proposed to rely on this figure for the full 19-year plan period 2021-2040.
- 1.7. In response to points raised by participants ahead of the hearings, the Council proposed an alternative approach at the hearings whereby the future LHN would be set at 999dpa, but past years would be set at the figures in place at the time. This is set out in MS-10 and confirmed as an appropriate approach by the Inspector in IDJB-012.
- 1.8. In summary, the Mid Sussex LHN is 19,243 for the plan period 2021 – 2040. This is a starting point for the housing requirement, which will incorporate the Council’s contribution towards unmet need in neighbouring authority areas. The Housing Requirement is set out in Section 4 of this Topic Paper.

Plan Years	Dwellings Per Annum	Total
2021/22 -2022/23	1,090dpa (x2 years)	2,180
2023/24 - 2024/25	1,039dpa (x2 years)	2,078
2025/26 – 2039/40	999dpa (x15 years)	14,985
<b>Total</b>		<b>19,243</b>

### 3. Neighbouring Authorities Unmet Housing Needs

- 1.9. The Submission District Plan included an over-supply of **996 dwellings** which were for resilience and to contribute towards unmet need of neighbouring authorities. MS-TP2 (paragraphs 3.26 – 3.31) explained that this had increased to **1,693 dwellings** as of January 2026 due to additional supply arising from new commitments. This increase in over-supply would wholly contribute towards meeting unmet need and therefore form part of the housing requirement (paragraph 3.32 and table 14).
- 1.10. As a result of discussions at the hearings, and confirmed in IDJB-012, the Council has been asked to test the ability to meet a higher housing requirement which includes an increased contribution towards meeting neighbour's unmet needs in addition to the Mid Sussex's LHN figure. It was agreed that a specific number of homes would be identified to meet a proportion of unmet needs arising in the same Housing Market Area (HMA), principally Crawley but also having regard to the south coast.

#### Northern West Sussex Housing Market Area

- 1.11. The Submission District Plan (at DPH1: Housing) sets out the agreed priority order, whereby any excess in housing supply above meeting Mid Sussex need is prioritised to the Northern West Sussex Housing Market Area (NWSHMA) which consists of Crawley, Horsham and Mid Sussex.
- 1.12. Crawley Borough Council adopted their Local Plan in October 2024. This demonstrated an unmet need of 7,505 dwellings.
- 1.13. At the hearings, it was agreed that Mid Sussex would test a contribution of half of this figure (3,753 dwellings). Horsham District Council is currently at examination for its Local Plan and has indicated that it will be testing meeting the other half. This will mean housing need in the NWSHMA will be met in full for the period to 2040.
- 1.14. Therefore, an additional **3,753** will be added to the Mid Sussex LHN figure for testing.

#### Coastal Housing Market Area

- 1.15. The Submission District Plan explains that the Coastal Housing Market Area (consisting of Adur & Worthing, Brighton & Hove and Lewes) is second in the priority order. The SHMA confirms that the southern part of Mid Sussex overlaps with the Coastal HMA, particularly Brighton & Hove (O10, Figure 1 and DC4).
- 1.16. Brighton & Hove City Council (BHCC) is at a different stage of plan preparation to Mid Sussex. BHCC's City Plan Part One was adopted in 2016 which showed a need of 30,120 dwellings and a housing target of 13,200 resulting in an unmet need of 16,920 for the period to 2030.
- 1.17. BHCC is currently working towards a review of the City Plan under the 'new' local plan system, with a timetable to be confirmed. The emerging City Plan has not reached any formal stages yet

and therefore BHCC’s understanding of housing supply is only preliminary at this stage. This means the extent to which BHCC can meet its housing need is unknown. It is anticipated that unmet need will be large and during recent discussions between the two authorities BHCC has estimated that only one third of current Standard Method need will likely be met in the period to 2040. This will mean an unmet need in the region of 25,000 dwellings over a 15-year plan period.

1.18. It is recognised by both Mid Sussex and Brighton & Hove Councils that it is not for Mid Sussex (or any other individual authority) to meet this unmet need alone, and that a strategic response will likely be required. Historically there has not been a formula/methodology or agreed approach for distributing any unmet need from the coast to other authority areas.

1.19. At the hearings, it was agreed that Mid Sussex would seek to meet a proportion of unmet need from the coast, particularly Brighton. One participant (Lewis & Co on behalf of Vistry Group) proposed a methodology [[REP-42888161-001a](#)] based on the numbers of people migrating from Brighton to Mid Sussex in 2022 and 2024 and converting these to dwellings based on average household sizes. This showed:

<b>Base Date</b>	<b>Gross Internal Migration into Mid Sussex - persons</b>	<b>Net Internal Migration into Mid Sussex - persons</b>	<b>Equivalent number of dwellings (Census 2021 ratio applied – 2.38 persons per dwelling)</b>
June 2022 Base Date	1,094	520	216 dwellings per annum
June 2024 Base Date	1,148	573	238 dwellings per annum

1.20. The Council has reviewed this proposed approach and does not agree that it forms a realistic basis on which to calculate its unmet need contribution. This is because:

- Past migration trends are a component of ONS population projections, which in turn feed into ONS household projections and therefore the Standard Methodology calculation. Adding an additional 216-238 dwellings per annum would therefore be double-counting.
- This approach implies that everyone migrating from Brighton & Hove to Mid Sussex does so because their housing need is not met in Brighton & Hove. In reality there are numerous reasons why people move from one authority area to another.
- The range quoted has no relationship to the unmet need figure.

1.21. The Council has devised an alternative method which directly relates to unmet need based on historic migration patterns. The most up-to-date ONS Migration statistics (2024)<sup>1</sup> shows 4.3% of all Out Migration from Brighton is to Mid Sussex:

Out Migration	People
Brighton to Mid Sussex	1,148
Brighton Out-Migration Total	26,838
% Brighton Out Migration to Mid Sussex	<b>4.3%</b>

1.22. On this basis, the Council proposes that it should accommodate a minimum of 4.3% of BHCC potential unmet need. This equates to **1,075 dwellings**.

1.23. The Council proposes this approach as it translates historic flows of people directly into unmet need. This avoids double-counting with the standard method which already incorporates historic migration trends.

---

<sup>1</sup> ONS [“Internal Migration in England and Wales: Internal Migration Estimates 2024”](#)

## 4. Housing Requirement

1.25. Taking LHN (section 2) and Unmet Need (section 3) into account, the Housing Requirement for the plan period is as follows:

<b>Mid Sussex Local Housing Need</b>	19,243
<b>Unmet Need – Crawley</b>	3,753
<b>Unmet Need – Brighton &amp; Hove</b>	1,075
<b>Total</b>	<b>24,071</b>

1.26. The total housing requirement of 24,071 dwellings will be tested during the in-combination testing phase and, subject to the results of this, will be reflected in a Main Modification to DPH1: Housing.

1.27. As confirmed by the Inspector in IDJB-012, the plan period is 2021 – 2040, a total of 19 years. The total housing requirement of 24,071 equates to **1,267 dwellings per annum** over the total plan period and is within the 1,200 - 1,300 range provided by the Inspector.

1.28. However, plan years 2021/22 - 2025/26 (five years) have already passed. As the precise contributions towards unmet need in Crawley and Brighton & Hove have recently been established during the hearings in February/March 2026, the Council has not been planning for this increased requirement to date. It is the Council's view that its contribution towards unmet need for these authorities should only apply to future monitoring years 2026/27 onwards (14 years). This will mean the remaining plan years will be planning for an average of **1,345 dwellings per annum**. An alternative would be to seek to deliver the shortfall within the next 5 years however given the scale of under-delivery this would not be achievable.

<b>Mid Sussex LHN</b>	999 dpa
<b>Unmet Need – Crawley (3,753 ÷ 14)</b>	269 dpa
<b>Unmet Need – Brighton &amp; Hove (1075 ÷ 14)</b>	77 dpa
<b>Total</b>	<b>1,345 dpa</b>

1.29. Section 6 of this Topic Paper sets out how this relates to the housing trajectory and five-year supply position. Note that the figures above relate to the housing requirement – subject to the results of testing and the incorporation of headroom, the District Plan will include a housing supply above these figures.

## 5. Housing Supply

### Completions and Commitments

1.30. Topic Paper MSTP-2 and the Council’s hearing statement MS02 set out the up-to-date completions and commitments figures at the time of writing. This was based on the position as at 1<sup>st</sup> April 2025. The Council has updated this position as at 1<sup>st</sup> April 2026.

#### Completions

1.31. There were **889 completions** in monitoring year 2025/26. In total, there have been 5,213 completions since the start of the plan period in 2021/22.

2021/22	2022/23	2023/24	2024/25	2025/26	Total
1,187	1,053	1,247	837	889	5,213

#### Commitments

1.32. The Council continues to have a healthy supply of sites committed for development, either from allocations in the adopted District Plan, Site Allocations DPD or made Neighbourhood Plans, or by achieving planning permission.

1.33. As at 1<sup>st</sup> April 2026, there are **8,054 commitments**.

1.34. Further detail, including a schedule of completions and commitments, are contained within Appendices 1 and 2.

### Submission District Plan – Proposed Allocations

1.35. Topic Paper MSTP-2 and the Council’s hearing statement MS02 set out the supply anticipated from proposed site allocations DPSC1-DPSC7 and DPA1 – DPA17.

Sustainable Communities (DPSC1 – DPSC7)	5,816
Housing Sites (DPA1 – DPA17)	1,446
<b>Total Supply from Allocations</b>	<b>7,262</b>

1.36. Since the hearings, there have been further updates on the following sites. As explained in the Site Selection Methodology Review [MS-12], the Council has considered whether any additional/new information provided for existing sites within the Submission District Plan would support a higher yield.

*DPSC7: Land at LVS Hassocks, Sayers Common*

- 1.37. A Hybrid planning application (DM/26/0238) was submitted in January 2026. This includes full planning permission for the re-provision of the SEN school on site and outline permission for the rest of the land for 210 dwellings.
- 1.38. DPSC7 is proposed for 200 dwellings. The Council considers that, in principle, the site can accommodate an increased yield without any identified harms and therefore the yield should be **increased by 10 dwellings**.

*DPA7: Land east of Borde Hill Lane, Haywards Heath*

- 1.39. Since the Submission District Plan was submitted for Examination in July 2024, an outline planning application has been submitted for up to 117 dwellings (amended plans) – DM/25/3129. This application is currently pending determination. This is an increase of 57 compared to the yield proposed in the Submission District Plan.
- 1.40. The documents submitted as part of the planning application show how 117 dwellings could be accommodated on this site. The western land parcel adjacent to Borde Hill Lane has been excluded from the developable area and the Council's landscape consultants consider the revised illustrative outline scheme reduces the landscape and visual impacts on Borde Hill Registered Park and Garden and the High Weald National Landscape which were concerns raised when initially assessing the site and discussed at the hearings.
- 1.41. In accordance with the revised Site Selection methodology, the Council is satisfied that this additional yield can be supported and the allocation yield **increased by 57 dwellings**.

*DPA9: Land to the west of Turners Hill Road / DPA10: Hurst Farm, Crawley Down*

- 1.42. As reported in MS-TP2, DPA9 has been granted planning permission for 350 dwellings. The site promoter has recently informed the Council that they now have control over site DPA10 to the north (proposed for 37 dwellings). In total DPA9 and DPA10 were proposed for 387 dwellings in the Submission District Plan.
- 1.43. An outline application (DM/26/0577) was submitted in March 2026 which covers both DPA10 and the northern section of DPA9 (the southern section was subject to a separate application). This would increase the combined yield of these two sites to 430 dwellings, an **increase of 43 dwellings**. The Council considers that, in principle, this increase yield can be supported.

*DPA12: Land west of Kemps, Hurstpierpoint*

- 1.44. Since the Examination Hearings held in March 2026, the Council has liaised with the site promoter regarding the deliverability of the proposed site allocation as this had been unclear, as reported in MS-TP2 (paragraphs 2.16 - 2.17). Whilst the Regulation 19 version of the Plan proposed this site for 90 dwellings, MS-TP2 noted the Council was minded to remove the site

from the supply – a decrease of 90 dwellings. The housing supply figures in MS-TP2, MS02 and discussed at the hearings did not include this site.

- 1.45. The site promoter has now confirmed that the site is available for development. The site promoter confirms the land subject to the proposed site allocation is within single land ownership. The current policy requirement in DPA12 is to provide suitable access from Orchard Way. A second potential site access has been identified via Sunleigh Court. The site promoter is engaging with all relevant parties regarding the delivery of both access points and remains confident that an agreement can be reached. The site promoter confirms that no issues have been identified with either access point and both could be achieved in highway design terms. A Main Modification would be needed to reflect that access could be achieved from more than one point.
- 1.46. The Council is therefore satisfied that the site is deliverable and developable and that it should be retained as an allocation for **90 dwellings**.
- 1.47. Therefore, the total supply anticipated from Submitted District Plan site allocations is as follows:

Ref	Site	Revised Yield May 2026
DPSC1	Land to the West of Burgess Hill and North of Hurstpierpoint	1,350
DPSC2	Land at Crabbet Park	1,950
DPSC3	Land to the South of Reeds Lane, Sayers Common	2,000
DPSC4	Land at Chesapeake and Meadow View, Sayers Common	26
DPSC5	Land at Coombe Farm, Sayers Common	210
DPSC6	Land to the West of Kings Business Centre, Sayers Common	80
DPSC7	Land at LVS Hassocks, Sayers Common	210
<b>Sustainable Communities Total:</b>		<b>5,826</b>
DPA1	Batchelors Farm, Burgess Hill	26
DPA2	Land south of Apple Tree Close, Janes Lane, Burgess Hill	25
DPA3	Burgess Hill Station	375
DPA4	Land off West Hoathly Road, East Grinstead	45
DPA5	Land at Hurstwood Lane, Haywards Heath	36
DPA6	Land at Junction of Hurstwood Lane and Colwell Lane, Haywards Heath	30
DPA7	Land east of Borde Hill Lane, Haywards Heath	117
DPA8	Orchards Shopping Centre, Haywards Heath	100
DPA9	Land to west of Turners Hill Road, Crawley Down	430
DPA10	Hurst Farm, Turners Hill Road, Crawley Down	
DPA11	Land rear of 2 Hurst Road, Hassocks	25
DPA12	Land west of Kemps, Hurstpierpoint	90

DPA13	The Paddocks, Lewes Road, Ashurst Wood	8
DPA14	Land at Foxhole Farm, Bolney	200
DPA15	Ham Lane Farm, Ham Lane, Scaynes Hill	30
DPA16	Land west of North Cottages and Challoners, Ansty	30
DPA17	Land west of Marwick Close, Ansty	40
<b>Housing sites DPA1-DPA17 Total:</b>		<b>1,607</b>
<b>Supply from Site Allocations Total:</b>		<b>7,433</b>
Sites DPA9 Land to west of Turners Hill Road, Crawley Down and DPA14 Foxhole Farm, Bolney had outline planning consent as at 1 <sup>st</sup> April 2026. Therefore, they are already counted in the Commitments list. Total Supply excluding these sites (avoiding double-counting):		<b>6,883</b>

## Windfall

- 1.48. MS-TP2 (paragraphs 2.20 – 2.24) sets out the Council’s approach to windfall. The Council has consistently applied an allowance for windfall in accordance with National Planning Policy and Planning Practice Guidance. MS-TP2 concluded an evidence-based windfall figure of **1,664 dwellings**.
- 1.49. The Council recognises that there is uncertainty when relying on windfall and this topic was discussed in detail at the hearings in February. Whilst there was little debate on the principle of including supply on small sites (less than 5 dwellings), participants raised concern that the Council were over-reliant on windfall from other sources (such as sites identified in the Urban Capacity Study) and on large sites.
- 1.50. On this basis, the Inspector concluded in IDJB-012 that:
- “The windfall element of the housing supply will be re-calculated taking into account a realistic assessment of past performance, whether certain trends such as office to residential conversions are likely to continue at the same level, and a realistic review of the capacity study which recognises development impediments and difficulties.”*
- 1.51. The Council has revisited its assumptions regarding windfall and has recalculated the windfall allowance. This has been informed by recent past performance and an assessment as to whether the windfall allowance continues to represent a reliable source of housing supply.
- 1.52. The updated assessment concludes that an allowance of **69 dwellings per annum** can be justified. This is based on past delivery performance of sites 1-9 dwellings in size and no longer relies on windfall from other sources such as from large sites (10+ units) or sites identified in the Urban Capacity Study. The Council considers this a precautionary approach, but one that can be more robustly relied upon.
- 1.53. To avoid double-counting with sites that have received planning permission, it is proposed that the windfall allowance does not apply for the next three years of the plan (so 26/27 to 28/29

monitoring years). Instead, this annualised figure will be applied for the remaining 11 years of the plan period equating to **759 dwellings**.

- 1.54. Further detail on the evidence supporting the updated windfall allowance is set out in the updated Windfall Study [H9].

## Headroom

- 1.55. As noted in MS-TP2, the Council recognises the importance in ensuring that a rolling five-year housing land supply can be maintained throughout the plan period, to prevent the Plan going out of date. In IDJB-012, the Inspector notes

*“The Council have a good record of delivery but are going to give consideration to [the] need for headroom, that is the theoretical excess of housing supply over housing requirement. Adequate headroom ensures that a plan is resilient should, for example, delivery fall short one or more allocated sites.”*

- 1.56. MS-TP2 (para 3.24, Table 13) set out the Council’s approach to determining a headroom figure. This was based on:

- 5% headroom for existing commitments not yet subject to planning applications/commenced/completed.
- 5% headroom for Submitted District Plan site allocations that have not yet received planning consent. This excluded DPSC2 and DPSC3 as they are considered separately, and DPA9 and DPA14 since they were consented.
- Contingency for DPSC2: Crabbet Park and DPSC3: Reeds Lane, Sayers Common to be delayed by one year, as these are two significant sized allocations that were due to complete in the final plan year 2039/40.

- 1.57. This approach was discussed at the hearings. Some parties argued an alternative approach, such as adding 5/10% on all sources of supply. The Council discounted this option due to its good record of delivery, as noted in MS-TP2 and IDJB-012. Another potential approach is to rely on forthcoming policies set out in the draft NPPF (S3, S4 and S5) which apply a presumption in favour of sustainable development in certain circumstances. Whilst this would allow supply to be boosted, the Council has concluded it wishes to retain explicit provision for headroom as part of future supply. This is because it provides additional certainty, as sites will have been allocated, consulted upon and planned-for (e.g. in infrastructure terms), whereas speculative developments sites will not.

- 1.58. The Council has reviewed these figures based on the latest commitments data (to 1 April 2026) and trajectories provided by site promoters as part of the information requested in March 2026. In addition, the headroom for allocations not yet receiving planning consent also includes the additional allocations required to meet the increased housing requirement.

1.59. The updated Headroom figure is now **766** based on:

	Dwellings
Existing Commitments not yet subject to application/commencement/completion – 5% headroom (721 total)	36
Submission Draft District Plan allocations not subject to planning consent – 5% headroom (5,991 dwellings)	300
DPSC2 and DPSC3 – delayed delivery by one year	430
<b>Total</b>	<b>766</b>

### Additional Sites for In-Combination Testing

1.60. In total, the Council has identified supply of 20,909 dwellings.

Supply Source	Dwellings
<b>Commitments</b>	8,054
<b>Completions</b>	5,213
<b>Existing District Plan Allocations</b>	6,883
<b>Windfall</b>	759
<b>Total</b>	<b>20,909</b>

1.61. With an increased housing requirement of 24,071 plus headroom of 766 the Council will need to test 24,837 for delivery. This means an additional **3,928 dwellings** will need to be tested and, subject to the results of testing, be allocated for development.

1.62. The Council produced an updated Site Selection methodology in March 2026 [MS-012] which was agreed by the Inspector [IDJB-012]. The Council has applied this methodology and set out its conclusions in an updated Site Selection Conclusions paper [SSP7].

1.63. The Site Selection Conclusions paper identifies the following sites for in-combination testing. These sites will be subjected to transport modelling, Sustainability Appraisal, Habitat Regulations Assessment and liaison with infrastructure providers to inform future policy and infrastructure requirements. In total, the sites below total **4,053 dwellings**.

Cat.	ID	Site	Settlement	Yield
<b>1</b>	1105	Land east and west of Malthouse Lane	Burgess Hill	750
	961	1-5 Queens Walk and 22-26 London Road	East Grinstead	100

	1024	Land at Brook House Farm, Turners Hill Road	East Grinstead	45
	1060	Land north of Hill Place Farm, Turners Hill Road	East Grinstead	50
	1181	Land east of West Hoathly Road	East Grinstead	20
	680	Field rear of North Colwell Barn, Lewes Rd	Haywards Heath	9
	844	Land at North Colwell Farm, Lewes Road	Haywards Heath	80
	988	Land to the North of Old Wickham Lane	Haywards Heath	49
	1136	Land at Lunce's Hill, Fox Hill	Haywards Heath	14
<b>2</b>	990	Courthouse Farm, Common Road	Copthorne	86
	686	Land r/o The Martins (south of Hophurst Lane)	Crawley Down	150
	1137	Land west of Ockley Lane	Hassocks	250
	19	Land east of College Lane	Hurstpierpoint	75
	582	South of Hurst Wickham Barn, College Ln	Hurstpierpoint	9
	1075	Land north of Willow Way and Talbot Mead, Cuckfield Road	Hurstpierpoint	150
	1172	Land south of Hurst Wickham Barn, College Lane	Hurstpierpoint	35
	575	Land northeast of Hurstpierpoint	Hurstpierpoint	150
	29	Land off Snowdrop Lane	Lindfield	50
	1006	Land to the north of Lyoth Lane	Lindfield	30
<b>3</b>	1178	Land north of Henfield Road	Albourne	20
	775	Grange View House, London Road	Albourne	10
	789	Phase 1 Swallows Yard, London Road	Albourne	46
	1173	Land east of London Road	Albourne	250
	1175	Land at Brambletye School, Lewes Road	Ashurst Wood	25
	28	Area south of Redbridge Lane at junction with London Road	Balcombe	20
	165	Land south of Oldlands Avenue (Vintens Nursery)	Balcombe	40
	802	Foxhole Farm Buildings, Foxhole Lane	Bolney	20
	1191	Land north of Foxhole Farm buildings	Bolney	13
	181	Land west of Truggers	Handcross	105
	1188	Land at Pease Field	Pease Pottage	196
	603	Land to the West of Woodhurst Farm, Old Brighton Road South	Pease Pottage	700
	818	Land north of Former Golf House, Horsham Road	Pease Pottage	41
	1124	West House Farm, Henfield Road	Sayers Common	325
	786	Land east of Avtrade, Reeds Lane	Sayers Common	75
	787	Land at Kingsland Lodge, London Road	Sayers Common	75
<b>TOTAL:</b>				<b>4,063</b>

## Requirement vs Supply

- 1.64. The total housing requirement, incorporating unmet need contributions for Crawley and Brighton is 24,071. When applying additional headroom of 766, the Council needs to have a total housing supply of **24,837**.
- 1.65. Once accounting for completions in the plan period so far, commitments, allocations within the Submission District Plan, and sites proposed for in-combination testing, this totals **24,969**. This provides some additional headroom and contingency.

Plan Period	2021-2040
<b>Housing Requirement</b>	
Mid Sussex LHN	19,243
Unmet Need – Crawley	3,753
Unmet Need – Brighton & Hove	1,075
<b>TOTAL HOUSING REQUIREMENT</b>	<b>24,071</b>
<b>Housing Supply</b>	
Completions 2021/22 – 2025/26	5,213
Commitments	8,054
<b>Total Committed Supply</b>	<b>13,267</b>
Sustainable Communities DPSC1 – DPSC7	5,826
Allocated Housing Sites DPA1 – DPA17	1,057 <sup>2</sup>
Sites Identified for In-Combination Testing	4,063
Windfall	759
<b>Total District Plan Supply</b>	<b>11,705</b>
<b>Headroom</b>	
Headroom	766
<b>TOTAL HOUSING REQUIREMENT + HEADROOM</b>	<b>24,837</b>
<b>TOTAL HOUSING SUPPLY</b>	<b>24,969</b>

<sup>2</sup> Excludes DPA9 (350) and DPA14 (200) which have planning permission and are therefore accounted for as 'Commitments'

## 6. Five Year Housing Land Supply

### Five Year Requirement – Stepped Trajectory

- 1.66. It is proposed to include a stepped trajectory in the Plan. The yearly requirement is set out in table below and indicates when the step will apply.
- 1.67. As the unmet need contribution towards Crawley and Brighton has only recently been settled through the examination hearings (and still subject to testing), the Council's view is that it should not feature in the requirement for previous plan years 2021 – 2026.
- 1.68. The Council considers it appropriate to include the unmet need within the annual requirement from year 2028/29, and this is when the upward step occurs. The Council believes this is a logical step as it coincides with delivery commencing at Copthorne/Crabbet Park, Crawley Down and Pease Pottage. These are sites close to Crawley and therefore ones which could meet unmet need arising there. It is also at this time that housing allocations in the southern part of the district including at Sayers Common could contribute to meeting Brighton's unmet need.
- 1.69. The current economic climate is also a consideration. The last two years of housing delivery has been slower than has been expected and this trend is anticipated to continue in the current monitoring year 2026/27 and into 2027/28. This reflects the wider economic uncertainties as a result of national and international events. These events are outside of the Council's control and there is little it can do to improve delivery in these years. It is anticipated that economic confidence will return, and therefore higher annual delivery rates can be expected.

### Five Year Supply

- 1.70. At this time the five-year supply is a draft figure. Until the further testing of sites and due diligence has been undertaken, there is still an element of uncertainty around whether the sites included for further testing will progress to an allocation in the Plan. The Council will therefore publish a final five-year supply position once the list of additional allocations has been finalised alongside a detailed trajectory.

### Housing Land Supply Calculation

#### *Delivery to-date within the plan period*

- 1.71. The housing land supply is calculated with a base date of 1<sup>st</sup> April 2026. This calculation assumes the adoption of the District Plan in monitoring year 2026/27 and accounts for anticipated delivery rates on proposed site allocations.

1.72. The Plan period started in 2021/22 and since then there has been five monitoring years. The historical delivery against the proposed stepped requirement for these years is as follows:

	2021/22	2022/23	2023/24	2024/25	2025/26	Total
Requirement	1090	1090	1039	1039	999	<b>5257</b>
Completions	1187	1053	1247	837	889	<b>5213</b>
Under Supply						<b>44</b>

1.73. In the first five years of the Plan there has been an undersupply of 44 units. The shortfall will be made up in the next 5 years of the plan period.

*Five-year supply Buffer*

1.74. This under supply has only occurred in the last two years. There is not a significant under delivery and delivery has not fallen below 85% of the housing requirement (as per the Housing Delivery Test calculations). In accordance with NPPF para 78(a) a 5% buffer should therefore be applied to ensure choice and competition in the market for land

*Total Five-year Housing Requirement*

1.75. The five-year supply requirement is as follows:

<b>Annual requirement for year 2026/27 – 2030/31 (999x2 and 1,298x3)</b>	5,892
<b>Shortfall spread over next five years (44/5 years = 9 per year)</b>	44
<b>5% Buffer</b>	297
<b>Total five year requirement</b>	<b>6,233</b>

*Housing Land supply Calculation*

1.76. The Council’s housing land supply is set out below. It shows that as at 1<sup>st</sup> April 2026, the Council can demonstrate a housing land supply position of 5.75 years supply. Appendix 3 sets out the sites that have been included in the 5 years supply calculation. This shows a supply of **7,136 dwellings** that are capable of delivery between has been 2026/27 and 2030/31.

<b>Total Housing supply in years 1 -5</b>	7,136
<b>Total five-year supply requirement</b>	6,233
<b>Supply surplus/shortfall</b>	+903
<b>Total five-year supply</b>	<b>5.72</b>

1.77. The Council can therefore demonstrate a five-year land supply on adoption of the Plan assuming it is adopted in 2026/27 and subject to confirmation of the sites that are allocated within the Plan.

### *Rolling Five Year Supply*

1.78. A number of assumptions have been applied when taking a forward look at the five-year supply. Firstly, an informed calculation can only be made until year 2035/36 as beyond this the five-year requirement falls outside the plan period which ends in 2040. Secondly, the under delivery to date is spread over the next five years at 9 dwellings per year. Thirdly, that no under delivery is anticipated in future years.

1.79. The Council can demonstrate a rolling five-year supply until year 7 by which time the majority of the smaller District Plan and Site Allocation DPD allocations would have been delivered. By this time, in accordance with current planning regulations, the Plan would be subject to a review. In addition, Local Government Reorganisation will mean that new Local Plans will likely be in force which cover a much wider area than Mid Sussex alone.

1.80. As part of the Councils further testing of additional sites it will be undertaking due diligence on anticipated delivery rates and therefore these figures are still subject to change.

	2026/ 27	2027/ 28	2028/ 29	2029/ 30	2030/ 31	2031/ 32	2032/ 33	2033/ 34	2034/ 35	2035/ 26	2036/ 37
Annual requirement	999	999	1298	1298	1298	1298	1453	1453	1453	1453	1453
Plus 5% buffer and under delivery	6233	6537	7005	7158	7311	7466	7628	7628	7628	7628	6103
5-year supply	7136	8450	9349	9805	9510	8819	7878	7177	6240	5179	3803
<b>Year supply</b>	<b>5.72</b>	<b>6.46</b>	<b>6.67</b>	<b>6.85</b>	<b>6.50</b>	<b>5.91</b>	<b>5.16</b>	<b>4.70</b>	<b>4.09</b>	<b>3.39</b>	<b>3.12</b>

\*Completions\* are residential units which finished construction between 1st April 2025 and 31st March 2026 on all sites across the District. Some larger sites deliver completions across several years. Mid Sussex District Council completion figures may differ from West Sussex County Council completions figures to be published in due course. This is caused by monitoring over a different period of time and does not affect the accuracy of either dataset.

# APPENDIX 2
